

Order Form (not interactive) for orders with invoice

This is the original order form often used by schools and local authorities for orders with invoice - but unlike our online shop it is not interactive. If you wish, you can print out and complete this form and send it to us or scan it and attach to an e mail. Alternatively you can just e-mail us with your requirements (giving us your contact details of course) or you can phone your order through. In these cases we will send out your order with invoice for payment. (within 21 days)
